The Quebec CPA Order is proud to offer its members insurance plans tailored to their needs and to the reality of their profession.

This year, we issued a **request for proposals** to various insurers to keep our plans **financially healthy** and **competitive**.

SSQ Insurance stood out by its ability to provide superior services at a very competitive cost and will become the new insurer of personal and group insurance plans offered exclusively to CPAs.

Auto, home and company liability insurance coverage remains with The Personal.

CHANGES TO YOUR DRUG AND HEALTH INSURANCE PLAN

In the spring 2020, you took part in a survey to assess your overall satisfaction with the insurance coverage, to determine possible areas of improvement and to confirm your interest in changes to the plan. We thank you for your participation!

In light of the results, we're taking advantage of the change of insurer to offer you new features that are more in line with best market practices to better meet your needs.

PRESCRIPTION DRUGS

Removal of the annual deductible and addition of a **deductible per prescription** so that you may benefit from immediate reimbursements, regardless of your prescription drug needs.

Introduction of a **maximum contribution per adult** to replace the maximum contribution per family to maintain reasonable costs for all.

VISION CARE

Elimination of maximums for **eye exams** to provide you with coverage that is in line with the market's reasonable and customary expenses.

PARAMEDICAL SERVICES AND MEDICAL SERVICES

Increases of many maximums and introduction of **psychoeducator** coverage to facilitate access to services and better reflect market trends.

Removal of annual deductibles to allow you to benefit from immediate reimbursements.
