The Health Insurance Plan for International Students *The Student Health Network*

Dear student,

Welcome to Québec!

Did you know that as a student from a country other than Canada, you are legally required to obtain health insurance coverage? In fact, **all international students in Québec are required to have medical and hospitalization insurance equivalent to the Québec Health Insurance Plan (RAMQ), for themselves and their accompanying dependents. In addition, this insurance must be maintained throughout their studies.**

The world of insurance is a very complex one and the risks associated with having no or inadequate insurance during your stay in Québec are significant, both financially and personally.

The Student Health Network experts are specialized in Health Insurance for International students like you. By contacting us, you will be sure to obtain the product that best meets your needs. Don't put it off any longer. Act now!

We wish you all the best in your studies.

Sincerely,

The Student Health Network Team
